Business Services Division:

Program Development & Evaluation

CBB's Business Services Division provides program development and evaluation services to start-up and existing operational businesses within the human services profession. CBB offers these services as an additional resource to solidify your business at inception, or to continue to evaluate your business practices to propel your business into its next phase of growth and sustainability. CBB's development and evaluation services are specific to these areas:

- Program creation
- Program implementation
- Program outcomes evaluation
- Program service delivery
- Program assessment
- Program intervention strategies
- Employee development
- Psychiatric Rehabilitation adults & youth
- Program Compliance & COMAR

****CBB is always striving to offer its customers the most innovative services to fit your business needs. Please feel free to contact us if you have any questions about the services that we provide. Our program development and evaluation services are evolving to include more services to meet the human service industry needs****
